Re: Technical Assistance re LowerPassaicRiverRestoration Project and NewarkBayStudy, Community Involvement – Session 1

Dear Mr. Kluesner:

Thank you for offering to send files that would be useful in preparing our PowerPoint presentation regarding sediment contamination for the Community Involvement meeting on September 27. If you can send a CD to the address above, that would be most helpful. If acceptable, I would like to copy slides from the PowerPoint versions of the following two presentations:

- 2006-04-03 PDT Geochemical MPI-final (presentation by Malcolm Pirnie, Inc. to PDT on April 5, 2006)
- 2006-05-24 Remedial Options Workgroup (Interim Action Evaluation: Preliminary Detailed Analysis, Remedial Options Workgroup, May 24, 2006)

I would appreciate it, if you could also include on the disk the "pdf" version of the "Draft Field Sampling Plan Volume 2" with figures.

We are hoping that the Regional Administrator, Alan Steinberg, will be able to join us on the September 27. Please let Ella Filippone and me know as soon as possible if he will be able to come.

Very truly yours,

Anne L. Kruger
